The "Inspiring Lives" motivational talk held on 11th June, 2022 & 12th June, 2022 at VISAT seminar hall was an inspiring and transformative event that left attendees feeling motivated, empowered, and ready to take on life's challenges. The event, presented by renowned motivational speaker Harisankar Nair Kodoth, aimed to inspire and uplift individuals by sharing personal stories, wisdom, and practical advice for achieving personal and professional success.

The event featured an engaging Q&A session where attendees had the opportunity to ask Speaker questions and seek personalised advice. This interactive element allowed for a deeper connection and understanding of the presented concepts.

The Electrical & Electronics Engineering Department of the college conducted a Soft Skill Development Programme for S3 & S5 students of the Department. Programme conducted on 1st Dec. 2022 from 11.00 am - 12:30 pm at College. Classes were taken by faculties of the Electrical Department (Ragi R, Johnson Philip, Akhil Beshy). Main sessions of the programme were,

- 1.How to give a good self-introduction and the manners that should keep in an interview
- 2.How to deliver a vote of thanks. 3.Official letter writing formats.

This was a good experience for our students and at the end of the programme every participant gave a chance to introduce themselves.

The 'Introduction to German' class is designed to provide students with a basic understanding of the German language, its culture, and essential communication skills. This report summarises the key aspects of the course, its structure, and the overall learning experience.

The class aims to create an engaging and interactive learning environment. Students have the opportunity to collaborate with peers through group activities, and instructors often use multimedia resources, such as videos and audio materials, to make the learning experience dynamic and enjoyable.

2. TEAM- ELOQUENCE

PROGRAMME REPORT

TEAM- ELOQUENCE

Objectives of the club:

- Enable to improve classroom activity, active engagement of students in the class, control noise, maintain discipline, and overall, overcome the learning objective.
- Serves as the foundation for understanding, cooperation, and building meaningful connections between individuals
- Good communication skills help to exchange ideas.
- Help to apply the win-win mind-set and to become assertive.
- Enable to design and deliver an impactful, professional presentation.
- It serves as the key that unlocks doors to success, fostering stronger relationships, driving productivity, and facilitating personal growth.
- Good communication skills avoid professional glitches in a team discussion.

The English language is known as the 'language of the times' and has undisputedly become the language of technology, communication, and information on the Internet, as it has become the common link across various social media platforms. To strengthen the English language education system, each of the 4 skills of **listening, speaking, reading and writing** has an important role to play.

In association with the '**Team-Eloquence club**', there is a practice of forming a committee in the first year, which comprises the Faculty Advisor, a member from the English club '**Team-Eloquence**' and a student coordinator from each class, to render training to the students on the aforesaid topics.

- In the **first year**, the students are divided into different groups, where each group comprises 4 to 5 students. Each group has to give a powerpoint presentation on a specific topic, Technical or Non-technical for 15 to 20 minutes. At the end of each presentation, an active discussion and a question answer session is scheduled, which ultimately improves the speaking and listening skills of every student. A vocabulary quiz, verbal reasoning test and Table Topics Level -1 (impromptu speaking : is a speech that a person delivers without predetermination or preparation without prior

PRINCIPAL
- VISAT ENGINEERING COLLEGE
(Affiliated to APJ AKT University)
Elanji, Ernakulam - 686 665

notice) are also scheduled 6 times a year to improve ability of a student to convey his/her thoughts and ideas which is indispensable for the academic growth and career development.

- In the **second year**, each group has to prepare a presentation on a 'socially relevant problem and its solutions', which in turn strengthens their critical thinking and problem solving skills. Group discussion is scheduled thereafter, so that everyone can express constructive criticism of one another's views, which can assist in sharpening and enhancing the solution. Working on a problem together can also aid in identifying underlying problems and basic reasons that may not have been visible to a single person. Table Topics Level II is also scheduled.
- In the **third year**, students have to deliver talks on innovative technical inventions around the globe or research conclusions in their respective disciplines. Special training is facilitated in report writing, formal letter writing, minutes preparation, job application preparation, CV and resume preparation. Table Topics Level- III is also scheduled.
- In the **fourth year**, students have to undergo training on curriculum based courses like seminars and projects. Besides the curricular activities, the students are facilitated and trained with mock interviews as it helps the candidates to reduce their stress and anxiety and to boost confidence before a real job interview.

In association with the club activities, an Elocution competition is scheduled every academic year.

The English club "**TEAM- ELOQUENCE**" was constituted at VISAT Engineering College on 21st June 2021.

Executive Members:

Chairman: Prof. Elvin Kuruvilla (Dept. Of CSE)

PROGRAMME REPORT

INTERNATIONAL YOGA DAY CELEBRATIONS

Name of the program : International Yoga Day Celebrations

Name of the Resource person : VISAT Engineering College

Date : 21st June, 2023

Time : 11.00 am - 12:30 pm

No of Beneficiary : 57

VISAT Engineering College NCC Cadets celebrated International Yoga Day on 21st June, 2023. Yoga master from Wellness Centre, Hyderabad provided training to the NCC Cadets of VISAT Engineering College. The trainers emphasised that Yoga is not just about bending or twisting the body and holding the breath. It is a technique to bring you into a state where you see and experience reality simply the way it is. Also highlighted that Yoga enables you to experience the whole universe as a part of yourself, making everything one, this is the union that yoga creates.
